Intel I350-T4 4xGbE BaseT Adapter for IBM System x

[Lenovo Intel I350-T4 4xGbE BaseT Internal Ethernet 1000 Mbit/s:](#)

The Intel I350 GbE Network Adapter Family for IBM® System x® features a robust, standards-based portfolio that delivers economical Ethernet features in an industry-standard PCIe form factor, and an IBM ML2 form factor. The IBM ML2 Network Adapter is placed into a ML2 slot on equipped IBM System x servers, enabling you to preserve your PCIe slots for other purposes. The IBM ML2 Adapter also enables the IBM System x server's management traffic to be combined with the application traffic. By merging this traffic onto a single port, your cabling and switching costs are greatly reduced.

Virtualization, cloud computing, High-Performance Computing (HPC), and clustering initiatives are increasing workload demands. The Intel I350 GbE Network Adapter is the solution of choice for workload-intensive computing environments.
