Seagate Personal Cloud 2-bay home media storage allows you to create your very own cloud that is accessible outside the home. Organize all your family's photos, videos, music and important documents in one secure central location on your home network, and back up not only all your PCs and Macs, but your cloud services as well.

Personal Cloud 2-bay can automatically and continuously back up every PC and Mac computer in the home—wirelessly. Stress less knowing that all your networked computers are backed up, and set your own backup schedule using the included Seagate Dashboard software. For extra protection of your data, Personal Cloud 2-bay comes equipped with two drives. All of your files are simultaneously saved to both drives. That way, if one drive fails, you still have access to all of your files.
